

Aragen Life Sciences partners with Skyhawk Therapeutics

15 July 2021 | News

Aims to develop novel small molecule therapeutics that correct RNA expression

Aragen Life Sciences (formerly, GVK BIO), a leading Contract Research and Development Organization (CRDO), headquartered out of Hyderabad, has been selected by US-based Skyhawk Therapeutics, a leader in the development of small molecule therapeutics that correct RNA expression, as its partner in India.

Through this collaboration, Aragen will provide Skyhawk with various discovery chemistry and biology service solutions. This partnership is focused on accelerating Skyhawk's research pipeline.

"We are delighted to have been selected by Skyhawk Therapeutics as its partner in India. At Aragen, we believe that in every molecule is the possibility for better health. It is with this spirit that we look forward to leveraging Aragen's 20 years of discovery research expertise to help Skyhawk advance the development of its novel small molecule therapeutics targeting some of the world's most intractable diseases.", said Mani Kantipudi, CEO, Aragen.
