

Sharda Care Healthcity appoints Dr Chirag Tandon as Director of Internal Medicine

22 May 2025 | News

Dr Tandon is widely recognised for his expertise in managing complex adult medical conditions

Reinforcing its leadership in comprehensive internal medicine and integrated patient care, Sharda Care Healthcity has appointed renowned physician Dr Chirag Tandon as Director of the Department of Internal Medicine at its state-of-the-art facility in Greater Noida.

With close to two decades of clinical experience, Dr Tandon is widely recognised for his expertise in managing complex adult medical conditions. His appointment strengthens Sharda Care Healthcity's capabilities to offer holistic, patient-centric care across a broad spectrum of general medicine services.

Dr Tandon brings with him deep proficiency in areas including diabetes and thyroid disorders, infectious diseases, metabolic and rheumatologic illnesses, geriatric medicine, gastroenteritis, and critical care. He is adept in ICU and ICCU management, as well as advanced treatment modalities such as Continuous Renal Replacement Therapy (CRRT) and dialysis. His additional training in pulmonary and sleep medicine further augments his multi-disciplinary approach to patient care.

He played a pivotal role during the COVID-19 pandemic, contributing significantly to the recovery of critically ill patients. Dr. Tandon is also an active contributor to medical literature, having co-authored a chapter titled "Sarcoidosis in India: Not So Rare" for the *Clinical Medicine Update 2009*. His work on the same topic earned the *Best Poster* award at the Annual API

Meet in Greater Noida in 2009.

Prior to joining Sharda Care Healthcity, Dr. Tandon served as Unit Head – Internal Medicine at Yatharth Hospital, Greater Noida.
