

Lupin and Zentiva sign license and supply agreement for commercialising Certolizumab

09 July 2025 | News

Lupin will receive an initial payment of \$10 million upon execution of the agreement

Mumbai-based pharma major Lupin Limited and Zentiva Group, a pan-European pharmaceutical company, have entered into a license and supply agreement for commercialisation of Lupin's biosimilar Certolizumab Pegol, across multiple markets globally.

This strategic alliance aims to accelerate the availability of high-quality, cost-effective biosimilar Certolizumab Pegol to patients worldwide.

Lupin will be responsible for the development, manufacturing and supply of the product within the agreed territories. Zentiva will oversee commercialization activities outside USA and Canada, predominantly in Europe and CIS markets, where it will leverage its extensive European commercial infrastructure and regulatory expertise. Lupin will undertake commercialisation in the remaining regions, including USA and Canada.

Both parties will invest in the development of the new biosimilar. Lupin will receive an initial payment of \$10 million upon execution of the agreement and total development and regulatory milestone payments up to \$50 million. The profits from the defined markets will be shared between the two companies.

Certolizumab Pegol is a recombinant, humanised antibody Fab' fragment, with specificity for human tumour necrosis factor

alpha (TNF?), conjugated to an approximately 40kDa polyethylene glycol. It is indicated for the treatment of patients with rheumatoid arthritis, polyarticular juvenile idiopathic arthritis, psoriatic arthritis, non-radiographic axial spondyloarthritis, moderate-to-severe plaque psoriasis and Crohn's disease.
