

Marengo Asia Hospitals acquires majority stake in Gujarat's Sunshine Global Hospitals

17 October 2025 | News

This acquisition follows Marengo Asia Hospitals' recent expansions into Varanasi

Marengo Asia Hospitals has further strengthened its Western India footprint with majority acquisition of Sunshine Global Hospitals — a prominent multi-specialty hospital chain in Gujarat with presence in Surat and Vadodara and a combined capacity of 350 beds. Both hospital units are NABH-accredited and offer more than 20 super-specialties.

Marengo Asia Hospitals focuses on providing tertiary and quaternary care, creating 'Centers of Excellence' across medical specialties, and adopting a 'patient first' approach. This acquisition further consolidates its presence in Gujarat where it already has two facilities located in Ahmedabad and Bhuj.

This acquisition follows Marengo Asia Hospitals' recent expansions into Varanasi with Metis-The Medicity, marking its entry into a new state (Uttar Pradesh), and into the Kingdom of Saudi Arabia (KSA), marking its first international collaboration with Specialized Najran Hospital.

With all these additions, Marengo Asia Hospitals now operates a total of 8 hospitals with a cumulative capacity of 2,500 beds, supported by a team of over 900 doctors and 5,200 employees.

"As we expand our presence in Western India, we are excited to enter 2 prominent cities of Vadodara and Surat and bring in our advanced tertiary and quaternary care expertise to the people of these cities and nearby areas." said Dr Raajiv Singhal,

Founding Member, Managing Director and Group CEO, Marengo Asia Hospitals. "Every new hospital we bring into the Marengo Asia Hospitals' network strengthens our commitment to the 'Patient First' approach — making specialised, affordable, and compassionate care accessible to more people, closer to their homes. Marengo Asia Hospitals aims to grow sustainably by developing clinical Centers of Excellence across specialties to deliver the best clinical outcomes for its patients."
